

FUNCTIONAL SPECIFICATION DOCUMENT

DEVOTEE MANAGEMENT SYSTEM:

GOAL: To help the admin to successfully use this application to handle devotees and to have a follow-up on the temple's poojas conducted, registrations, and all other services to devotees.

REQUIREMENTS:

- A form that allows the user to enter all the required information. This information will include the details of his family also along with their birthdates so that special pooja could be scheduled on those days.
 - The form shall also require the user for the period he has registered (eg. 6 months or 1 year or so).
 - This form will be linked with the previous form to schedule the pooja according to the user details.
- A form to have a list of all poojas conducted in the temple. This form will hold information like the dates on which special occasions occur, the poojas that are to be held on those days and the schedule of poojas held daily with timings.

- Finally, a report to show the admin a summary of all the information. The report form consists of the devotee and Pooja details.
